R ESISTANCE

Accurately tracking everything that moves on and off site is critical for efficient business operations.

Intov8's game-changing **POLR Goods Tracking** application significantly improves tracking and communication of the **Goods Out** Process and **Freight Register** to enable improved warehouse efficiency.

BENEFITS

Reduces the number of lost items

Minimizes human error

Saves valuable time

Practical & easy to use

Increases visibility

Delivers greater accuracy

Increases efficiency & profitability

Processes data in near real time

The Connected Warehouse

You need **POLR Goods Tracking** whether you have one site and one warehouse or multiple sites using the same warehouse.

Consolidate your **Goods Out** and **Freight Register** data into one database to increase visibility, minimise human error and reduce the number of lost items.

POLR Goods Tracking is linked to the ABN Register, so you'll never misspell or double up on a business name again.

Intov8's **POLR Goods Tracking** can be configured for any Transport provider. You can view tracking details of your **Goods Out** by the single click of a button, which automatically takes you to the transport providers website.

And by simply clicking the Goods Outward Advice number, you can generate a Report immediately to attach to an outgoing parcel.

CENTRALISE YOUR **GOODS OUT** AND **FREIGHT REGISTER** DATA WITH **POLR GOODS TRACKING**.
