

POLR
ORGANISER

The Ultimate Personnel Scheduling Tool

Manage rosters and track availability of your team in a matter of seconds.

PATH OF LEAST RESISTANCE

Keeping track of personnel and maintaining rosters for crews has been a challenge for many businesses for many years.

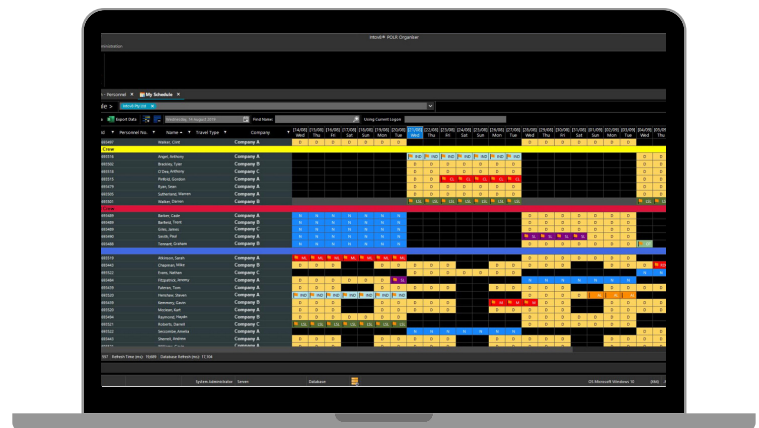

Say goodbye to the multitude of time consuming and disconnected spreadsheets used to maintain personnel records, rosters and leave.

We've created a much easier way.

Introducing **POLR Organiser**, an innovative personnel scheduling tool by Intov8.

In real time, you are now able to track the availability of your team within crews or business units. From here, you can also manage rosters and view absence or attendance data

Supervisors and Managers have an instant snapshot of capability and competency levels of team members; are able to redistribute personnel between crews for upcoming projects and manage training – all within a single, streamlined system.

BENEFITS

Increases efficiency and profitability

Eliminates the need for spreadsheets

Practical and easy to use

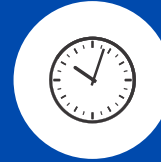

Improves accuracy of roster planning

Maintain resource utilisation & ensure KPI's are met

Provides a snapshot of capability and competency levels

Monitor personnel & crews in real time

Greater visibility of personnel & rosters

Emails are automatically generated and sent when a leave request is entered, ensuring all relevant parties are aware of personnel movements.

POLR Organiser is the most advanced personnel scheduling tool for the mining industry and the ultimate tool to assist Supervisors in planning and managing their crew.
